## **Cannabix Technologies to Present Marijuana Breathalyzer Technology at International Association for Chemical Testing (IACT) Conference in California**

*Cannabix is developing Marijuana Breathalyzer devices to give law enforcement and employers a tool to enhance public safety*

Vancouver, British Columbia, April 22, 2024 -- Cannabix Technologies Inc. (CSE: BLO) (OTC PINK: BLOZF) (Frankfurt: 8CT) (the “Company or Cannabix”) developer of marijuana breathalyzer devices for law enforcement and the workplace reports that it will be presenting at the International Association for Chemical Testing (IACT) conference in April. Cannabix’s Dr. Bruce Goldberger Ph.D., will be presenting on *Science & Technology Behind Cannabis Breath Testing* and the Company’s marijuana breathalyzer system at the conference workshop session. IACT is composed of governmental agency personnel involved in chemical testing related to traffic safety. IACT members are scientific and criminal justice professionals, including forensic scientists, regulatory inspectors, and law enforcement personnel with representatives from a majority of states and international members. IACT has standing committees to address various areas including legislation, training, new equipment and procedures and manufacturers of breath testing equipment.

The *Cannabis Breath Testing* workshop at IACT 2024 is designed to provide background information regarding the pharmacokinetics and pharmacodynamics of cannabinoids in breath, present the current technology for collection devices from commercial vendors, and discuss the necessary laboratory workflows and analytical considerations when testing these samples.

Dr. Bruce Goldberger is a professor and the former Chief of the Forensic Medicine Division in the Department of Pathology, Immunology and Laboratory Medicine in the College of Medicine at the University of Florida. Dr. Goldberger served as Director of the University of Florida forensic toxicology laboratory for 30 years. Dr. Goldberger is the Principal Investigator of the Florida Drug-Related Outcomes Surveillance and Tracking System and Co-investigator of the National Drug Early Warning System. Dr. Goldberger is a consultant for the Centers for Disease Control and Prevention’s National Center for Injury Prevention and Control, Overdose Mortality Team, and the National Center for Health Statistics, Division of Vital Statistics. Dr. Goldberger is a consultant and senior advisor to Cannabix Technologies Inc.

About Cannabix Technologies Inc.

Cannabix Technologies Inc. is a developer of marijuana and alcohol breathalyzer technologies for law enforcement, workplaces and laboratories. Cannabix is developing delta-9 THC and alcohol screening devices. Delta-9 THC is the psychoactive component of marijuana that causes impairment. Breath testing for delta-9

THC would allow employers and law enforcement to identify recent marijuana use. Cannabix is the developer of Breath Logix Series of autonomous breath alcohol detection devices for employers and a range of other settings.

We seek Safe Harbor.

*On behalf of the Board of Directors*

“Rav Mlait”

CEO  
Cannabix Technologies Inc.

#### Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking information that involves various risks and uncertainties regarding future events. Such forward-looking information can include without limitation statements based on current expectations involving a number of risks and uncertainties and are not guarantees of future performance of the Company, such as final development of a commercial or prototype product(s), successful trial or pilot of company technologies, no assurance that commercial sales of any kind actually materialize; no assurance the Company will have sufficient funds to complete product development. There are numerous risks and uncertainties that could cause actual results and the Company's plans and objectives to differ materially from those expressed in the forward-looking information, including: (i) adverse market conditions; (ii) risks regarding protection of proprietary technology; (iii) the ability of the Company to complete financings; (iv) the ability of the Company to develop and market its future product; and (v) risks regarding government regulation, managing and maintaining growth, the effect of adverse publicity, litigation, competition and other factors which may be identified from time to time in the Company's public announcements and filings. There is no assurance that its development of marijuana breathalyzer technology will provide any benefit to the Company, and no assurance that any proposed new products will be built, will be successful in beta testing or clinical trials. There is no assurance that existing “patent pending” technologies licensed by the Company will receive patent status by regulatory authorities. The Company is not currently selling commercial breathalyzers. Actual results and future events could differ materially from those anticipated in such information. These and all subsequent written and oral forward-looking information are based on estimates and opinions of management on the dates they are made and are expressly qualified in their entirety by this notice. Except as required by law, the Company does not intend to update these forward-looking statements.
